ceries you will find a complete stock at  
T. M. Bartels.

Ihrig & Swigart will sell dry stove  
wood at \$1.75 a cord, and hay at 45 to  
50 cents a bale.

Mr. Al. Walton, one of the bright  
young men of Elm, was among our  
callers Tuesday.

Frank Leffler has received a fine  
line of clocks and silverware which he  
is selling cheap.

Coal lands, marble lands, raw and  
improved lands for sale or trade. Bos-  
twick & Smeltzer.

Hart & Gillman are off on a trip  
selling freezer territory. They are  
now in Oklahoma.

Rev. A. S. Freed is attending Con-  
ference at Girard this week and will  
remain over Sunday.

A lot of fine shoes and a large in-  
voice of seasonable dry-goods just re-  
ceived at Colburn's.

A nice line of baby carriages just  
received at the South Side Furniture  
Store. J. Culbertson.

We are closing out our sewing ma-  
chines; if you want a bargain don't  
delay. T. M. Bartels.

Ask for the Electric Health shoes at  
Weigley's. They are a sure fit and they  
keep your feet warm.

One of the Santa Fe bridge gangs is  
at work this week putting up guard  
rails on the Elm Creek bridge.

W. H. Jordan was in town over  
Sunday. We are glad to note that his  
shadow has not grown less.

There has been a coal famine in Iola  
for two or three days and nobody can  
tell how soon it will be relieved.

John Henderson has given up his  
job on the Colony Free Press and is  
now at work in his father's office.

Mr. Pryor expects to bore two more  
gas wells right away. They will be in  
the Davis place, west of the city.

President Taylor was unable on ac-  
count of illness to meet his engage-  
ment to lecture here last Friday night.

Frank Nigh says that the mortgages  
that come into his office for record these  
days are "mighty few and a tattering."

When you come to town don't go  
without your dinner when you can  
get a lunch at Zike & Ling's for a dime.

All parties wanting flax seed for sow-  
ing must place their order immedi-  
ately or may not get seed. A. W. Beck.

J. M. Williamson has traded for the  
Storey residence property, in the north  
part of town, and moved into it yester-  
day.

Cowan & Ausherman want to sell  
you drugs and medicines and can offer  
you inducements to buy. Give them a  
call.

The admission to Prof. Canfield's  
lecture to-night is only ten cents, and  
there is no extra charge for reserved  
seats.

It is time to begin to think about  
gasoline stoves and you should go to  
Bartels' and see the Quick Meal. It is  
perfection.

Superior Axle grease at Coutant's;  
warranted not to gum, get hard in  
cold or melt in hot weather; 4 boxes  
for 25 cents.

Mr. A. H. Campbell is in Kansas  
City this week on business connected  
with his office as attorney for the Mo.  
Pac. railway.

We are cutting our prices on  
clothing, boots and shoes and rubber  
goods square in two. Call and see.  
L. A. Thrasher.

If you want a carpet, furniture, pi-  
ano, sewing machine or anything in  
their line Patterson & Sleeper will  
save you money.

H. L. Henderson sold this week the  
W. D. Port tract, just east of A. W.  
Beck's residence, to a Mr. Sorden, of  
Woodson county.

A communication from C. S. Ritter,  
commenting upon our remarks about  
the Alliance, is received and will be  
printed next week.

Get coffee at Klaumann's while it is  
cheap. It has advanced a cent a  
pound within the past week and is  
likely to go still higher.

Prof. Canfield has a national reputa-  
tion as a thinker and a talker. Don't  
fail to hear his lecture at the Opera  
House to-morrow night.

Miss Lena Givler started Wednes-  
day to Illinois where she will visit  
friends and relatives at Lexington,  
Cofax and other places.

Mr. L. Whitaker, who has been con-  
fined to the house for several weeks,  
by a succession of carpal spasms, has re-  
covered sufficiently to be out on the  
street.

I have just received a full line of  
mixed paints, carriage paints, varnishes,  
and stains all of best quality and  
cheaper than ever before. Dr. J. W.  
Scott.

Mr. R. B. Stevenson and family re-  
turned Wednesday from Washington.  
They have greatly enjoyed their winter  
in the Capital, but are glad to get  
home again.

H. C. Hearst of Vernon, Mo., and  
Mrs. Mary Gunn, were married Sun-  
day at the residence of the bride's  
father, G. V. Robinson, Esquire Cum-  
mings officiating.

Parties having farms to sell for cash  
or to exchange for other property will  
please call on us at once as we have  
considerable inquiry for farms.  
Bostwick & Smeltzer.

J. E. Hardin of Carlyle, brought  
two dozen live chickens to Iola last  
week and sold them, by weight, for  
\$8.75. He thinks it pays to raise good  
stock if it is only chickens.

Traveling men say that W. L. Bar-  
tels has the largest and best stock of  
stoves and general hardware there is  
in Allen county. That is the reason  
you should go there to buy goods.

DIED: Of lead poisoning at Armour-  
dale on Tuesday, March 3, Mr. Wesley  
Swamp. The remains were brought  
here for interment. The relatives  
have the sympathy of their friends.

Messrs. Sickley and Fox, who went  
to New York a few weeks ago with  
the Hart & Gillman freezer, have both  
returned. They disposed of all their  
territory to advantage, we understand.

Having made a change in my busi-  
ness it becomes necessary that all my  
old accounts should be closed at once.  
Those indebted will please call and  
settle either by cash or note. W. J.  
Ihrig.

The Southern Kansas will sell,  
March 15 and 16, round trip tickets to  
Dallas, Texas, limited to return  
March 25, at one fare for the round  
trip. The occasion is the convocation  
of Knights of Pythias.

The ground hog period expires to-  
day and we hope the brute will now  
come back out of his hole and let us  
have some decent weather. He has  
given us a sadly bedraggled time of it  
these past six weeks.

George Barth writes his father that  
during eleven months spent in Neb-  
raska and South Dakota he has not  
seen rain enough to make the ground  
muddy. It is dry in other places  
than in "drouthy Kansas."

The program of Mr. Shaley's concert  
to be given next Tuesday evening is  
published in this issue. It will be  
observed that it includes some high  
grade music, and we think those who  
attend will find it enjoyable.

Jurors, witnesses and litigants in at-  
tendance upon the District Court will  
find the Nickel Plate restaurant the  
best and cheapest place in town to get  
meals. Under Abrams' management  
it is run in first class style. Give it a  
trial.

Owing to a mis-count for which we  
are not responsible, we were obliged to  
cut off our entire exchange list and  
some of our subscribers last week.  
This has not happened before in eight  
years and we hope will not happen  
again.

I have ordered a very large and well  
assorted stock of wall paper for the  
spring trade and it will be ready for  
inspection in a few days. Don't make  
your purchases until you have exam-  
ined my goods. A. O. Allen, P. O.  
Box 206.

We are in receipt of the latest re-  
vised edition of Copp's "Settlers  
Guide." It is an indispensable as-  
sistant to all who are or expect to be  
interested in public land. Send 25  
cents to Henry N. Copp, Washington,  
D. C., for copy.

A. T. Crow has been notified that he  
successfully passed his final examina-  
tions at the Dental College and he is  
therefore a full-fledged D. S. He has  
been a hard student and will doubtless  
succeed. W. N. West graduated in  
the same class.

The Marble Company is in receipt of  
frequent letters from marble dealers  
at various places asking for samples  
and prices. It looks as if there will  
be no lack of a market for Iola marble  
and the company will push operations  
as fast as possible.

Everybody was glad to note by last  
week's Humboldt Union that a certain  
little girl's eyes, under skilful treat-  
ment, were showing a marked "im-  
provement for the better." It would  
indeed be sad if the "improvement"  
were for the worse!

The "Indian scenes" given at the  
Opera House last night will be re-  
peated to-night with an entire change  
of program. If you were there last  
night of course you will be on hand  
tonight. But if you were not there do  
not miss this last opportunity.

An article by Senator Ingalls which  
has created a great deal of talk and  
with which we do not half agree, and  
another by Noble Prentiss which is  
full of good sense and with which we  
entirely agree, are among the specially  
good things on our inside pages this  
week.

Miss Ida McHugh entertained a  
number of friends at the home of Mrs.  
C. H. DeClute on Monday evening.  
No difficulty was found in passing the  
time pleasantly, an elaborate lunch  
assisting, among other things to that  
end, and the occasion was a most  
happy one.

Owing to the illness of one of our  
compositors we have not been able to  
set our usual amount of type for the  
past two or three weeks, hence the  
omission of several contributions  
and the curtailment of local news.  
We hope to be up to the usual stand-  
ard next week.

John Watkins will sell at his farm  
3 miles east of Iola on Thursday,  
March 19, 1891, six mares (three with  
foal), one horse, 28 yearling steers, 16  
cows (3 fresh), 14 heifers, 1 bull, 15  
hogs, a complete stock of farm im-  
plements and some mill and flour seed.  
For terms and particulars see bills  
from this office.

The article on the railroad question  
from the pen of Chas. S. Gieed, of To-  
peka, part of which appears on our  
last page, has been commented on all  
over Kansas as the clearest, fairest  
and most complete statement of the  
railroad situation that has yet been  
written. The article will be concluded  
next week and will well repay careful  
perusal.

Our Moran correspondent gives the  
details of the horrible accident by  
which Mrs. P. L. Augustine lost her  
life at that place on Tuesday. It is  
the most distressing occurrence that  
has been chronicled in the REGISTER  
for a long time. The deceased was a  
sister, we believe, of Mrs. W. F. Sick-  
ley, of Elm; and leaves four children  
the oldest of whom is but six years of  
age.

Mr. Jas. Townsend, a west-of-the-  
river farmer, sold six hundred bushels  
of potatoes this week to Humboldt  
merchants for \$1.00 a bushel. He still  
has about six hundred bushels on  
hand. Mr. Townsend is one of the  
men who manages to make money  
farming.

The Southeast Kansas Teachers'  
Association meets at Fort Scott March  
19, 20 and 21. A large flag is offered  
to the county which has the largest  
percentage of its teachers in attend-  
ance, and as we are within easy reach  
of Ft. Scott it is hoped that Allen  
county may carry off the prize. Fare  
is one and one third for round trip.

An unfortunate difficulty occurred  
in the school last Friday between Mr.  
Grant Billie and one of the pupils—  
Rad. Parkinson, as a result of which  
the former has been arrested upon  
complaint of the parents of the latter  
charged with assault. The case is set  
for trial before Esquire Cummings, at  
nine o'clock tomorrow morning, and  
until it is determined the REGISTER  
prefers to withhold further comment.

Jesse Smith, colored, hired a gun a  
few days ago from A. Ewart and for-  
got to return it. Mr. Ewart had a  
warrant sworn out for his arrest but so  
far the officers have been unable to  
serve it. They cornered him down by  
the river Wednesday, but he jumped  
in and swam to the other side and the  
officers concluded they didn't want  
him. It is not known where he is now.

During the recent farmers' institute  
in Marion county, the farmer who  
made \$7 a day last season raising corn,  
presented the following facts: He  
planted nineteen acres, which required  
two days for listing, nine for culti-  
vating and twelve for husking, total  
twenty-three days; yield at thirty-  
three bushels per acre, 627 bushels;  
proceeds at 28 cents a bushel, \$175.56;  
making an average for each day of  
\$7.68.

Rev. W. H. Hyatt will begin Sun-  
day night a series of twelve lectures  
on the Pilgrim's Progress, the succeed-  
ing ones to be given on succeeding  
Sunday nights. These lectures will  
be illustrated by handsome oil paint-  
ings, and will doubtless be very inter-  
esting. Preparatory to these discourses  
Mr. Hyatt has already given two  
talks on the life and times of John  
Bunyan which have been entertaining  
and instructive.

Mr. Cox announced last week that  
he had leased the Allen County Herald  
to Mr. W. A. Bailey, who takes edito-  
rial and business charge of the paper.  
Mr. Bailey seems a very pleasant and  
courteous gentleman and he has our  
best wishes. The only thing that dis-  
tresses us is that a man who was once  
a good enough Republican to be twice  
elected Register of Deeds in Woodson  
county should have so far fallen from  
grace as to find it in his heart to run a  
straight-out Democratic newspaper.

Charlie Kline has given up his situa-  
tion in Evans' drug store, on account  
of ill health, and will take a rest of  
several months. He is now visiting  
with his wife in Girard, but they ex-  
pect soon to return here for a few days  
and then go on to Indiana where they  
will probably spend the summer. Mr.  
Kline has made a great many friends  
in Iola and everybody hopes he may  
completely regain his health. His  
place in the store will be taken by Miss  
Lattie Evans.

Miss L. A. Mints, who was here  
some weeks ago in the interest of the  
G. A. R. Memorial College, writes us  
that it has been thought best to re-  
move the college from Oberlin to Ellis-  
worth, Kansas. She also desires us to  
ask all who, since Oct. 1, 1890, have  
sent money to her address, to write to  
her at Ellisworth stating the date of  
such remittance, the amount and the  
form in which the money was sent, as  
there is evidence that money this sent  
has been lost.

Hon. E. H. Funston will probably  
reach home this week. It is not too  
much to say that as chairman of the  
Agricultural Committee—a position  
which for reasons beyond his control  
he will not occupy in the next Con-  
gress,—he has done more effective  
work and has secured more legislation  
favorable to the agricultural and  
stock interests of the country than  
has ever before been done in the same  
length of time by any previous chair-  
man.

Some farmers in Cloud county re-  
cently experimented with dynamite as  
a subsoiler. Light charges were placed  
in the ground at distances of about  
six feet apart. The soil was not ser-  
iously disturbed at the surface, but in-  
vestigation showed that the subsoil  
was broken up and pulverized to a  
depth of several feet and left in a con-  
dition to hold all the water that falls  
on it. The expense for dynamite is  
trifling. They think they have made  
an important discovery.

The snow storm was rather rough  
on the robins who came along a week  
or so ago under the delusion that  
spring was here, but they braved it  
through without a murmur, sounding  
their clear reveille from the tops of  
the trees every morning as cheerily as  
though the earth were all green in-  
stead of white. The robin sometimes  
makes a mistake in his weather cal-  
culations, but he takes the conse-  
quences like a man and doesn't go  
howling around blaming the Republi-  
can party for his misfortunes.

Two years or so ago, while under  
the management of W. W. Scott, the  
REGISTER contained an editorial pro-  
testing against the expenditure of im-  
mense sums of money in the construc-  
tion of a navy that we had no need for.  
The article did not attract much at-  
tention. A few days ago Senator In-  
galls expressed precisely the same  
views in a New York paper, and his  
words were copied and talked about

all over the country. We do not cite  
this to accuse the Senator of plagiar-  
ism, but merely to show that the  
amount of attention a thing said re-  
ceives often depends greatly on who  
says it.

The second regular lecture in the  
High School course will be given at  
the opera house tomorrow night by  
Prof. James H. Canfield, of the State  
University, his subject being "Iola  
the Young Man for the Times." Iola  
is fortunate to be able to secure this  
lecture, for Prof. Canfield has twice as  
many invitations as he could possibly  
accept. The reason is that he is re-  
garded all over the State as a clear  
and original thinker and a most elo-  
quent and witty speaker. Those who  
attend his lecture may be sure of en-  
tertaining and instruction. A nom-  
inal admission fee of ten cents will be  
charged and the hall ought to be  
crowded.

According to the calendar spring is  
here, but according to the state of the  
weather we are in the middle of win-  
ter. Last Saturday about noon a  
snow storm came down from the  
north, driven by a fierce wind, that  
came nearer being a blizzard than  
anything we have had all winter.

The wind only lasted about an hour  
but the snow continued until three or  
four inches had fallen. It turned  
warm Monday and was nearly all  
gone when there came another storm  
Tuesday morning bringing two inches  
more of snow, and most of that is still  
on the ground. But the ground hog's  
six weeks are up today, so maybe we  
may look for spring.

The Pettigrew vs Mills case was  
passed upon by the Supreme Court  
Monday and the judgment of the  
lower court affirmed. This is a case  
that has been dragging along for five  
or six years, and this is the second  
time it has been to the Supreme Court.

The case arose out of the well known  
"Richards' judgment" matter, and  
the effect of this last decision is to  
show that the sale of railroad lands  
under said judgment was entirely in-  
valid. Capt. Ewing has been the at-  
torney for Mr. Pettigrew and the de-  
cision is no small triumph for him, as  
there were many close points at issue  
in the case.

Yates Center News: Several of the  
members of the K. of P. Lodge at this  
place went over to Iola last Wednes-  
day evening to attend lodge at that  
place. They came home Thursday  
wanting to all talk at once about the  
regal manner in which they were en-  
tertained and the jolly good time they  
had while visiting the brethren on the  
raging Neosho. One of them was  
worked up to such an extravagant  
pitch that he had the nerve to ask us  
to unlock the forms after we had them  
on the press and publish a pan of  
praise of Iola lodge only half a column  
in length. The boys are a little quiet-  
er now, but all the fellows who want-  
ed to go so awfully bad, but just could

not get away, are very envious and  
are getting ready to go next time sure.  
The boys were not only well fed and  
well cared for generally, but they  
learned a great deal while they were  
over there. If you do not believe it  
just ask Jim about cannon coal.

Fred Funston is evidently too tough  
for even Death Valley to make way  
with as we have a letter from him of  
recent date avowing that he still lives.  
Here is a brief extract: We left San  
Bernardino January 1, and after a  
twenty days' trip across the Mohave  
desert, entered Death Valley from one  
of the passes of the Panamint range.  
I had expected to find that the terrors  
of the place had been exaggerated as  
such things generally are, but not so.  
It doesn't take long to describe it: A  
valley forty miles long, from eight to  
fifteen broad, and ten thousand feet  
deep, a bottom of snow white alkaline  
crust, a gray haze, an awful stillness—  
that is Death Valley. The weather  
was about as hot as a Kansas June,  
and in summer the mercury goes up  
to 147 in the shade. We found the  
place where the emigrant trail was  
lost in 1850. Nothing is left but wag-  
on trees, ox-bows etc. The seventy  
bodies were buried in 1890 by soldiers  
in the Federal range on the east side.  
We found the graves of thirteen others  
in the valley, most of them marked  
"Unknown." More of these die from  
heat than thirst. We have used great  
caution and so far all has gone well.  
The expedition is now at Ash Mead-  
ows, Nevada. Mr. Coville, chief bot-  
anist, and I, came here for the mail.  
We made the distance, 100 miles in  
three days, carrying beds, water and  
provisions on our horses. We start  
back tomorrow with four week's  
mail." He adds in a postscript that  
his "favorite yearn" now is for beef  
steak and pumpkin pie.

Ingersoll on California.  
In a recent magazine article Mr.  
Ernest Ingersoll, the noted writer  
says: "The climate of southern Califor-  
nia in winter closely resembles that  
of Egypt. Its equability is constant,  
and its dryness is proverbial. The  
only complaint made is that it is too  
nearly perfect. Residents bred in the  
Eastern States confess now and then  
that a rousing storm would give them  
a grateful sensation. But this senti-  
ment meets with no favor from the  
man who has just fled from a superflu-  
ity of wetness and chilling gales. To  
him perpetual summer seems perpetu-  
al paradise, and to the invalid dread-  
ing the advance of disease the still and  
arid atmosphere is as the breath of  
life."
